SEC Education Evaluation Lunches

As you probably have noticed, all SEC courses are evaluated by the university and sometimes by the teachers themselves. This is done by large questionnaires. Last year InterSEction has started an oral evaluation of the SEC courses.

We think that a discussion, while enjoying a good lunch, is a more efficient way to evaluate the SEC courses and of course the teachers. This way, every student will have the chance to give comments on every aspect of the courses that were given during the first period and on the functioning of the teachers. We will gather all your comments into one clearly formulated document per course and give them to the teachers, so they will know how the students think the courses can be improved.

We hope that everybody will join this education evaluation to improve the SEC education. The Science Education evaluation and the Science Communication evaluation will take place at separate dates, to work as efficient as possible.

The Sinterklaas evening

Like every year, Sinterklaas is coming to Holland. For the SEC students he also has a special evening planned. Therefore InterSEction will organise a nice gathering. On this evening we will have dinner together on Tuesday the 8th of December at Motiv (Voorstraat 60, Delft). This time you don't have to cook your own meal, but we will do it! After dinner we'll have some drinks while playing the Sinterklaas Game!

Everybody has to buy three presents, which are suitable for everyone. The total costs may not exceed 10 euros. A big stack will be made of all presents and the game can begin. Everybody throws a dice in turns and the action can begin. The presents from the stack will be given, taken, exchanged and returned during this exciting Sinterklaas Game!

Please come and join the Sinterklaas celebration at the 8th December! Please let us know if you plan to be there by clicking the SEND button below.

What: Sinterklaas celebration with dinner and "The big Sinterklaas Game".
When: Tue 8 December 2009, 17:30 h
